

DP-306071

CHECK VALVE FOR A FUEL PUMP**5 ABSTRACT OF THE DISCLOSURE**

A check valve for a fuel pump of a vehicle includes a valve housing adapted to be disposed in an outlet member of the fuel pump and a valve seat formed on the valve housing. The check valve also includes a valve member disposed in the valve housing and having a closed position to operatively engage the valve seat to prevent fuel from flowing through the outlet member and an open position to allow fuel to flow through the outlet member. The valve member also has a single outlet port to allow flow from the valve member when the valve member is in the open position.
